Mother Cathedral of Holy Ejmiatsin was built by St. Gregory the Illuminator in 301–303, and it is considered to be the oldest church built by a state in the world. According to the 5th century Armenian annals, Saint Gregory had a vision of Christ descending from heaven and striking the earth with a golden hammer to show where the cathedral should be built. Hence, the patriarch gave the church and the city the new name of Ejmiatsin, which may be translated as “The place where the Only Begotten descended”.

10:30 Trip to, Lake Sevan Dilijan **Haghartsin-Goshavanq-Lake Parz**

Lake Sevan is, undoubtedly, one of the most exciting in Armenia. This wonder of Nature is located 60 km from Yerevan up a highway. Sevan is considered to be the pearl of Armenia and the largest freshwater pool in the South Caucasus is the second largest alpine lake in the world, after the Bolivian Lake Titicaca. The gentle turquoise of Sevan's waters is always astonishing: the lake is so austere and majestic. The mystery of Sevan's origin has not been fully solved. Some specialists believe that the bowl of the lake is the crater of an extinct volcano, while others think that millions of years ago volcanic lava formed a natural reservoir trapping the water inside.

The inner sanctum of the St. Astvatsatsin Church (The Holy Virgin), located in the middle of several buildings, is the oldest structure here, dating back to 928, while its adjoining gavit or entrance hall is one of the later buildings, built in 1211. A library was created at Sanahin in 1062, and a medical school flourished in the 12th century. The name “Sanahin” literally translates from Armenian as “this one is older than that one”, presumably representing a claim to having an older monastery than the neighboring Haghpat Monastery. We offer: A visit to Vernissage, market.

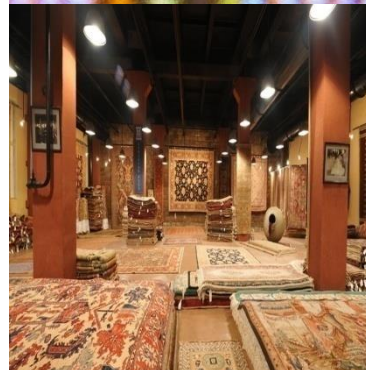

Vernissage- Yerevan's Flea Market is probably one of the best open air markets in world. It is called VERNISSAGE (varnishing, from French) — a term used for a preview of an art exhibition. It is one of the most crowded places in Yerevan despite the season and weather, which goes live on every Saturday and Sunday, no matter it's hot outside, cold or heavily raining. It's an open air market where the best and most impressive souvenirs are offered. Throughout the years it has turned into one of the most significant elements of Yerevan's cultural life.

Market - One of the most vivid places in Yerevan is Gum Market near the Tashir trading center. The displays of fresh and dried fruits at this covered market are pretty as a picture. In summer, the fresh fruit is magnificent, with peaches, cherries, apricots and berries of every description tempting shoppers. In winter, dried fruits and nuts, including the strings of syrup-coated walnuts known as *sujukh*, are popular purchases. Other produce includes fresh vegetables, aromatic herbs, pungent *basturma* (finely cured ham) and huge blocks of cheese.
